Arabic

Roopanjali Roy
Portuguese

Auditor...

Naziar Hashemi
Crowe Clark Whitehill LLP
UK

About Our Members

We are thought leaders, innovative practitioners, social entrepreneurs and generators of change leading civil society organisations all over the world.

We work together towards our common vision of a world where every child can grow up in a permanent, safe and caring family, and are provided with alternative care when needed. Together, we are Family for Every Child.

Associação Brasileira Terra dos Homens, Brazil

ABTH works with the biological family of a child to be able to protect the children while also providing innovative temporary foster care.

Butterflies, India

With a non-institutional approach, Butterflies focuses on giving a voice to children so they can influence policy and decision making that affects their own lives.

Care for Children, China

Their National Family Placement Project has trained over 275 residential care facilities to improve the process of transitioning to family-based care.

Children and Families Across Borders, UK

CFAB identifies and protects children and vulnerable adults who have been separated from their families for many different reasons.

Challenging Heights, Ghana

CH rescues children trafficked within Ghana for exploitation in the fishing industry. They provide children with shelter, protection and help to reintegrate back into community.

ChildLink, Guyana

ChildLink uses a children's rights-based approach to achieve positive changes in the lives of vulnerable children and to protect them from exploitation and abuse.

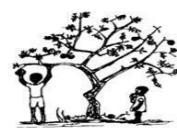

CINDI Network, South Africa

The network mobilises resources and provides access to information so its members can improve the rights of vulnerable children and their families in South Africa.

Farm Orphan Support Trust, Zimbabwe

FOST supports and protects vulnerable children in Zimbabwe's farm communities. They enable protection in remote areas.

Forum on Sustainable Child Empowerment, Ethiopia

Works in 5 cities to prevent separation, protect vulnerable children and reintegration of children back into their communities.

Hayat Sende, Turkey

Established by people who grew up in state care, they aim to create innovative solutions for those who are now experiencing the same state care.

To be approved by the Board in September

Hope Village Society, Egypt

HVS cares for children in difficult circumstances, orphans who have been abandoned and those deprived of family care, especially street children.

Jordan River Foundation, Jordan

JRF focuses on ensuring child safety and child-focused interventions. Their child protection system made Jordan the first country in the region to address child abuse.

Juconi, Mexico

Juconi seeks to prevent and heal the effects of domestic violence on children and adolescents who live in extreme poverty or have been living and/or working in the streets.

Muhammadiyah, Indonesia

With a focus on social and educational activities, their social program MPS finds alternatives to residential care and new methods to promote family-based care.

Naba'a, Lebanon

Through six refugee camps, Naba'a supports children at risk of violence and neglect. They work to empower local communities to uphold the rights of children and young people.

Partnership for Every Child, Russia

P4EC focuses on preventing loss of parental care for children and providing safe, secure family environments for those without care.

Projeto Legal, Brazil

A non-governmental, human rights organisation working for the promotion and defense of human rights, especially those of children, adolescents and youth.

Taller de Vida, Colombia

TdV works with children affected by the armed conflict in Colombia. It strives to keep them safe and work on their reintegration through psychosocial intervention.

Undugu Society of Kenya, Kenya

USK works to improve the care of children and youth living and working on the street in Nairobi and its close-by area with both curative and preventive methodologies.

Our Host

Uyisenga Ni Imanzi, Rwanda

The organisation works with children and young adults who have lost their parents and become head of their households as a result of the Rwandan genocide and HIV/AIDS.

UNM offers many different types of support such as mental health care, support to achieve economic sustainability through the development of income-generating activities, funds for educational programs and materials for children to attend school.

Uyisenga has provided assistance for those testifying at the Gacaca courts, a system of community justice established in the wake of the Rwandan genocide.

Family
for every child
